Engineering Degree Course Taught in English

IMAC-U

International Mechanical and Aerospace Engineering
Undergraduate Course (Bachelor's Degree)

What is IMAC-U

IMAC-U is an international undergraduate course taught fully in English in Division of Mechanical Engineering in School of Engineering at Tohoku University. It consists of more than 100 laboratories covering a wide range of study fields from mechanical systems design, aerospace engineering, robotics, nanotechnologies, fluid dynamics, thermal engineering, materials engineering, biomedical engineering, information science. Students are provided a world-class educational and research environment to study mechanics engineering and foster an international awareness.

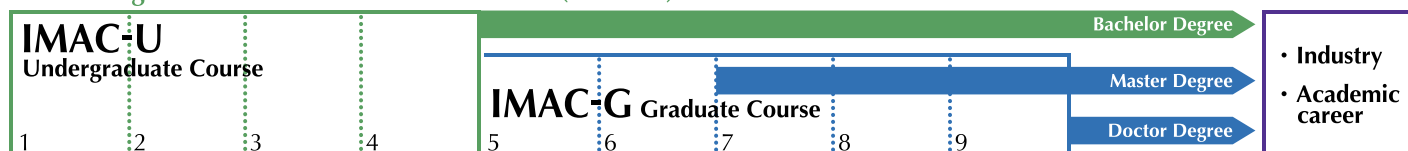

Tuition and Fees

■ Examination Fee	JPY 5,000
■ Entrance Fee	JPY 282,000
■ Tuition per year	JPY 535,800

Students Supporting

- **Scholarship** (For three FGL courses: IMAC-U, AMC and AMB)
 - MEXT Scholarship: 8 students (119,000 JPY/month, 4 years, tuition waive)
 - Tohoku University President Fellowship: non-MEXT Scholarship students (amount fully covers the Exam Fee, Entrance Fee and 4 years tuition)
 - Japan Student Services Organization (JASSO) Scholarship: non-MEXT Scholarship students (48,000 JPY/month, besides Tohoku University President Fellowship, a half year, extendable)
- **Accommodation:** University dormitories for 2 years.
- **Tutor system:** All students are supported by tutors for the first year.
- **Japanese Language Class**

Connecting to International Graduate Courses (IMAC-G)

Tohoku University

Tohoku University, since its establishment as the 3rd Imperial University in 1907, has been an academic leader for over 100 years at a high level of education and research, especially in science and engineering. It is proud of its abundance of world-class research achieved in the spirit of Research First, the philosophy of Open Doors and the policy of Practice Oriented Research and Education, and is continuing to be at the forefront of various innovations. Tohoku University has been chosen as the best Japanese university in annual survey for Japanese high school teachers for the last 10 years. In 2017, it was conferred as one of the three Designated National Universities in Japan by the Japanese Government.

Admission
