Engineering Degree Course Taught in English

IMAC-G

International Mechanical and Aerospace Engineering
Graduate Course (Master's, Doctoral Degree)

What is IMAC-G

IMAC-G is an international graduate course taught fully in English in the Graduate School of Engineering at Tohoku University. It consists of 4 departments with more than 80 laboratories. Prospective students will have excellent opportunities to study fundamental engineering and conduct cutting-edge research under the supervision of top-level researchers.

IMAC-G includes the following departments

- Mechanical Systems Engineering
- Finemechanics
- Robotics
- Aerospace Engineering

Tuition and Fees

■ Examination Fee	JPY 30,000
■ Entrance Fee	JPY 282,000
■ Tuition per year	JPY 535,800

Student Support

■ Scholarship

■ JASSO Scholarship

Prospective students may apply for financial aid provided by JASSO (Japan Student Services Organization) for privately financed international students.

■ JSPS Fellowship for doctoral students.

■ Research Assistant (RA) and Teaching Assistant (TA).

■ Tutor system

All students are supported by tutors for the first year.

■ Career Support

The high level research activities have kept us strongly connected to leading industries. The Department Recommendation System helps international students develop their careers in Japan.

■ Japanese Language Class

Tohoku University

Tohoku University, founded in 1907 as Japan's 3rd Imperial University, has been an academic leader in education and research under the spirit of "Research First" and "Open Doors". In the era of globalization it has been striving forward to pursue the new heights of excellence.
